

## for Unions from the Workplace Bullying Institute

Spend three intensive days with Dr. Gary Namie, co-founder and director of the Workplace Bullying Institute for a one-of-a-kind learning experience. A typical comment from Union attendees:

Without exaggeration, the WBI [Workplace Bullying University] was the best training I have attended in my twenty-three years as a both a union attorney and union representative. While Dr. Namie's knowledge of workplace bullying is encyclopedic, he is able to present this information with incredible clarity and passion. This is a graduate level course and, at the end of it, a union or professional will be well prepared. I cannot give high enough praise to the WBI.

Eric Fisher, Uniserv Rep, Connecticut Teachers Association

Gary Namie is a member of the National Writers Union, UAW, Local 1981/AFL-CIO.

### *Members Are Suffering*

With unremitting exposure to bullying, members suffer stress-related health problems: high blood pressure, coronary disease, ulcers, depression, PTSD. Employers do not hate workplace bullying. Some love it. It is a default management style. Complaints to HR lead to retaliation and loss of jobs. Unions are the only source of relief for bullied workers. Unions can become the experts to help their own.

Unions that provide substantial support to bullied members can claim superior service and will be better positioned in the post-*Friedrichs* era.

### *University Trains the Trainers for Your Union*

University attendees who complete the 3-day training, can train union sisters and brothers back home. University goes beyond training. It equips Unions with the blueprint to create a Team of internal experts in bullying. Some services Teams provide to colleagues are:

- Clarification of members' bullying experiences
- Validation (you're not crazy, you're being abused)
- Information (thru web, telephone)
- Emotional triage -- references to therapists, attorneys
- Coaching -- personal strategies
- Training/education
- Intervention
- Help crafting CBA terms
